5DAY CHALLENGE

5 days, 5 video tutorials, 5 simple steps... to turn your ZBrush sculpture into a polished illustration

Baby Yoda Fan Art Process

ZBrush BPR render with two light setup and 5 custom BPR Filders

Keyshot render
This is a render from Keyshot, using the model and Polypaint from ZBrush. The main difference between ths and the BPR render, is the quality of the materials and the light (which behaves in amor realistic way in Keyshot).

The Material for the eyes and the tooth, is a simple shiny plastic. For the head I used a Skin Material with SSS properties.
